🏆 Judging Criteria

Teams will be judged on a scale of 1-10 for each category:

1. Technical Execution 🔧

- How well-built is the project? Code quality, functionality, completeness.

2. Creativity 💡

- Is the idea original and clever? Novel approach or use of technology.

3. Presentation 🎤

- How well did they pitch it? Clear explanation, demo quality.

4. Usefulness 🤝

- Does the team understand their user? Solving a real problem with practical impact.
